Oregon Sea Grant
seagrant.oregonstate.edu

One Integrated Program

Scientific Excellence  Societal Relevance  Meaningful Engagement

- Headquartered at Oregon State University since 1968
- A state-federal partnership with the National Oceanic and Atmospheric Administration
- Generates $8 million/year in economic benefits for Oregon
- Provides nearly $1 million/year supporting research and students
- Outreach and engagement specialists live and work in the coastal communities they serve

Oregon Sea Grant:
- Builds strong partnerships, listens carefully, and responds to the needs of our partners and stakeholders
- Is committed to scientific integrity, community engagement, and non-advocacy
- Strives for equity in our work
- Improves service to and enhances the quality of life in our coastal communities

Oregon Sea Grant’s mission is to serve as a catalyst that promotes discovery, understanding, and resilience for Oregon coastal communities and ecosystems.
